

NAMES ADDED TO THE DEATH ROLL

More Victims of the Atlantic City Disaster Than at First Supposed.

THREE OTHERS RECOVERED

INQUEST WILL BEGIN THURSDAY MORNING.

Atlantic City, Oct. 30.—With all the recovered bodies identified and seven persons reported missing, the authorities are certain that the number killed on Sunday in the bridge disaster, will not exceed sixty. Fifty-two bodies have been claimed, two of these placed among the missing are known to be dead and five are still unaccounted for. These seven victims are believed to be wedged beneath the second passenger coach, which is held fast in the muddy bottom of the thoroughfare. Efforts last night to dislodge this car produced little result. The trucks, weighing about ten tons, have sunk deep into the mud. As a last resort, it was suggested that the wreckers use dynamite and blow up the car, but this will not be done unless all other plans fail.

The inquest will begin on Thursday, and Coroner Gaskill thinks that it may be a week or more before a verdict is reached.

Following a conference today with City Solicitor Wooten, Coroner Gaskill declared that he is absolutely certain that more persons were killed in the Pennsylvania electric train disaster than is shown by the number of bodies recovered. The coroner says he has information which proves that the number of passengers on the train was at least ninety-one, as originally stated, that there were seventy-six through passengers from Camden and fifteen persons riding on passes. A few got off at way stations, but many got on at Pleasantville and other points.

CARS BEING RAISED.

Bodies of Three Women Recovered From the Water.

Atlantic City, Oct. 30.—The contention of Coroner Gaskill that a number of persons who lost their lives in the electric train wreck may be buried in the mud where the cars plunged into the water was borne out late today when the bodies of Mrs. Paul Felsburg, Selma Johnson and Mrs. Sarah Miller were recovered from under the third car. This car hung from the abutment in the center of the bridge with its nose in the mud and when the workmen were trying to lift it from the water the bodies worked loose. That of Mrs. Miller was pulled fast in the wreckage, but that of Mrs. Felsburg floated up to the view of the workmen. Mrs. Johnson's body was found some time later, caught under the wreckage.

The finding of the bodies increases the official dead to fifty-one and the total number of bodies recovered to fifty-four. There are still known to be missing the dead bodies of Mrs. Frank Monroe, 65 years old; Joseph McElroy, H. N. Church and Anna Alexis Texaco, which makes the certain number of dead in the wreck fifty-eight. There still remain at various morgues three unclaimed bodies. The second car was raised this afternoon and it is probable that before morning the last one will be entirely out of the water, which means that it is expected that several other bodies will be recovered.

Aside from the search for the bodies, interest now centers in the inquest, which will be held by Coroner Gaskill on Thursday morning. While he will not express an opinion before the inquest as to the cause of the wreck, it appears from his statement made today that he is convinced the bridge on which the accident occurred is not as it should be and may have to be rebuilt.

Statement by Company.

New York, Oct. 30.—The officials of the Pennsylvania railroad have been unable to determine the direct cause of Sunday's disaster at Atlantic City, according to a statement made public tonight at the local offices of the railroad company. The tactics of the cars when raised out of the water were carefully examined by officials of the company and there was nothing about either the wheels or other parts to throw any light on the subject. As thorough examination has been made of the wreck, it appears from his statement made today that he is convinced the bridge on which the accident occurred is not as it should be and may have to be rebuilt.

TWO NEW TOWNS LAID OUT

Dutchman and Cottonwood to Become Business Centers of Walker Lake Country.

Reno, Nev., Oct. 30.—Today the new towns of Dutchman and Cottonwood, on the western shore of Walker lake, are the scenes of great activity. The town sites are being laid out by surveyors, and on the streets that have been designated, stores are being erected and tent dwellings put up.

On every mountain slope can be seen hundreds of men doing location work on claims. The terraces that are being raised across Walker lake promise to become permanent features in the new mining region. Today a large number of passengers were carried between the eastern and western shores of the lake, many of these making the trip merely for sight-seeing.

It is estimated that at least 2,500 prospectors are satisfied with the claims they have found and are remaining on the reservation. All night long and today a steady stream of people left the reservation without having found any land that they believed was rich in minerals. It is still the public opinion that the reservation was opened under unfair conditions. People who abided by the law and waited for the sign to depart that they had no chance against those who drove off walked over the boundaries the night before.

That considerable litigation will result from overlapping and disputed claims is evidenced by the fact that a number of prospectors have retained lawyers to institute damage suits. There was considerable excitement at Hawthorne last night, when Ben Hanley, a clerk in the store, found four men in the place. He opened fire with a revolver and struck one of the men in the chest. Hanley escaped.

AGREEMENT REACHED.

Budapest, Oct. 30.—Baron von Aehrenthal, the newly appointed Austro-Hungarian minister of foreign affairs, had a long conference today with Dr. Wekerle, the Hungarian premier, and it is said that the two statesmen reached a complete agreement on all questions concerning the external policy of the dual monarchies.

ROCKWOOD HOAR DYING.

Worcester, Mass., Oct. 30.—Representative Rockwood Hoar's condition was very grave today. Dr. Badger said he failed considerably during the night.

OGDEN NEWS.

Office, 2484 Washington Avenue.

Ogden, Wednesday, Oct. 31.

STANFORD QUITS HIS COUNTY JOB

Chairman of County Commissioners, Under Accusation by Skeen, Resigns.

Joseph Stanford, chairman of the board of county commissioners of Weber county, against whom charges have been filed for the alleged presentation of false claims against the county, by Attorney J. D. Skeen, yesterday afternoon presented his resignation to the board. It was immediately accepted. The resignation was not unexpected, so that it created little more than a ripple of surprise when it was presented. The board had met in a special session to close up the business before today. When this had been done, Mr. Stanford presented his resignation and later made a statement containing his reasons therefor. The resignation is as follows:

"I beg most respectfully to herewith tender my resignation in writing as a member of the board of county commissioners of Weber county, Utah, my term as such not expiring until the first Monday in January, 1907, and ask that this resignation take effect immediately.

"In this connection I have prepared a brief statement, which I submit herewith, relative to some of the reasons or causes which prompt me to tender my resignation."

Reasons for Resignation.

In announcing his reasons for withdrawing from the board at this time Mr. Stanford said:

"As stated in my letter this day to you, tendering my resignation as a member of the board of county commissioners of Weber county, Utah, I beg to submit the following statement:

"You are aware that I am charged by one D. J. Skeen in the Second judicial district court of Weber county, state of Utah, with making illegal claims against Weber county of receiving warrants in payment thereof, notwithstanding said claims, prior to their being allowed and paid, were examined and approved by the county auditor as to their correctness, and by the county attorney as to their legality. Similar claims have been allowed to members of the general boards of county commissioners for a number of years, no questions ever having been raised as to their legality. All the time such claims in the aggregate did not exceed \$200 annually, the amount allowed by the state enactment. It appears that along technical lines some of such claims, according to the allegations set forth in the complaint, have not been properly itemized, notwithstanding the fact that the county auditor and a member of previous boards during the past ten years have made their claims in like form, and in many instances not itemized as I have made mine. I am now singled out at this late date, through personal animosity, vindictive spleen and hatred, and solely for political purposes, the object of attack. If such allegations are found to exist in any one small item in any of the claims, then I am given to understand that without any modifying or extenuating circumstances being either considered or allowed, or even any error in judgment or memory, or from any other cause at all, with no intentional wrongdoing, the penalty is one of removal from office. By reason of exposures made of dishonest irregularities and misdeeds transferred in life insurance companies, banking institutions, etc., the public mind has become thoroughly imbued with such bias toward any accusations or charges made in this direction carrying the semblance of a doubt against the accused, as was evidenced in the trials recently held. It renders it impossible, in my opinion, to obtain a jury to try a case of this nature without serious bias controlling the minds of the jurors.

Can't Stand Expense.

"The expense attending a trial upon the charges preferred by D. J. Skeen, the salary of \$500 per year does not justify, and the probable expense of \$500 attending such a trial and likely a much larger sum, is a heavy burden upon me. I do not feel justified in assuming, and therefore I shall not permit the case against me to go to trial.

"Another more vital and important reason for tendering my resignation is that I have been advised by Drs. George W. Baker and H. E. Forbes and by many friends that it would not be prudent or wise for me to undergo the severe strain of a trial, particularly in view of my age and because of still laboring under the ill health of a recent paralytic stroke. My health is such that of more importance to me than all else, I am in conclusion I can only say that at no time in the recuperating of my health have I been controlled by other than the most honest and pure motives. To my dying day I will ever say that not one single dollar was taken by me illegally from the treasury of Weber county. I am a victim of a precedent followed by practically every county commissioner for practically the past ten years, and of the malicious and vindictive spleen of an annually disgruntled politician.

Immediately after the acceptance of the resignation Commissioner W. G. Wilson assigned the duties of the chairman of the board to Mr. Madison, the other members of the board, in addition to County Attorney E. T. Hulaniski, expressed their regrets that the action of Mr. Stanford became necessary and gave testimony as to his worth as a county official, in which capacity they said he would be sorely missed.

No Politics in Charges.

The only reference to politics in connection with the charges made by Mr. Skeen was made by Mr. Stanford. The fact that politics had anything to do with his action in prosecuting Mr. Stanford is denied by Mr. Skeen, who points to the fact that he was not a candidate for office at the time his charges were made, and that he would be named by the Democrats as their candidate for county attorney.

Upon his own request Mr. Stanford was granted permission to occupy his present office in the court house until such time as he could conclude his regular quarterly statement. In addition to this he was vested with authority to handle matters pertaining to the duties of the county clerk, such time as the board was reorganized. It is understood that although Mr. Stanford will no longer be a commissioner, he will hold some office as a sort of pension, and therefore will not be thrown out entirely.

Talk of Successor.

In connection with the selection of a successor to Joseph Stanford on the board of county commissioners, a number of prominent Republicans yesterday requested the appointment of W. G. Wilson, whose term of office expires on the first of the year, in reply to these requests, Mr. Wilson made this statement yesterday:

"I would have to decline the honor even if it were tendered to me. I have no desire at this time to hold office in that way, although I appreciate the efforts of those who are seeking to bring this about. I had the most unpleasant duty of my life to perform when I moved to accept the resignation of Mr. Stanford, whose place I know will be decidedly hard to fill."

TO AUDIT COUNTY RECORDS

Committee Appointed by Commissioners to Go Through Books, and Ascertain Conditions.

Robert T. Harris and Charles R. Hollingsworth were yesterday appointed as an auditing committee "to audit the records of the county." This action was taken by the county commissioners ostensibly for the purpose of learning the truth concerning the accounts that have been made that there has been wholesale graft committed by the county officials. This action is also looked upon by many as a political move to create the impression that the Republicans are desirous of getting at the truth. Should this be their true desire there is little doubt but what they will get all they wish. The committee appointed to do the work is the same that audited the accounts of the city at the conclusion of the term of William Glasman as mayor and whose report raised such a furore among the Republicans. These men say that they will go into the matter most thoroughly and render a true report of conditions as they find them without fear or favor.

In making the motion for the appointment of the committee yesterday Commissioner G. Wilson said that he believed the audit was necessary. This statement is construed as being directed toward the stock company of the county building that he believed the audit was necessary. This statement is construed as being directed toward the stock company of the county building that he believed the audit was necessary. This statement is construed as being directed toward the stock company of the county building that he believed the audit was necessary.

INVESTIGATION IS BEGUN

Contents of Letter to E. M. Allison, Jr., Leaks Out and Authorities Are Notified.

In connection with the publication of certain portions of a private letter sent by H. H. Rolapp of this city to E. M. Allison, Jr., of Salt Lake, and misused to the aggregate of \$200 annually, the county commissioner \$200 annually, the amount allowed by the state enactment. It appears that along technical lines some of such claims, according to the allegations set forth in the complaint, have not been properly itemized, notwithstanding the fact that the county auditor and a member of previous boards during the past ten years have made their claims in like form, and in many instances not itemized as I have made mine. I am now singled out at this late date, through personal animosity, vindictive spleen and hatred, and solely for political purposes, the object of attack. If such allegations are found to exist in any one small item in any of the claims, then I am given to understand that without any modifying or extenuating circumstances being either considered or allowed, or even any error in judgment or memory, or from any other cause at all, with no intentional wrongdoing, the penalty is one of removal from office. By reason of exposures made of dishonest irregularities and misdeeds transferred in life insurance companies, banking institutions, etc., the public mind has become thoroughly imbued with such bias toward any accusations or charges made in this direction carrying the semblance of a doubt against the accused, as was evidenced in the trials recently held. It renders it impossible, in my opinion, to obtain a jury to try a case of this nature without serious bias controlling the minds of the jurors.

REPUBLICANS SCARED.

Waking Up to Fact That They Need to Hustle.

Notwithstanding the claim made by the Republicans that there are no Democrats in Weber county they are doing some hustling these days and have a number of addresses in the hands of the postoffice official for investigation. The county auditor, at least a portion of the contents, was used for political purposes, although it had no political significance, by one of the papers yesterday and today. This naturally was displeasing both to the writer and to the person for whom it was written. E. M. Allison, Jr., of this city, denies that it was opened by Mrs. Allison and given to Carl Allison, a son who is a deputy county clerk, for mailing to Salt Lake. Just how the leak came about is not known. A thorough investigation will be made of the matter.

YOUNG MAN ARRESTED.

Horace Scholl, Aged 19, is Charged With Embezzlement.

Horace Scholl, 19 years of age, has been placed under arrest on a charge of embezzlement. The complaint charges that he has been systematically robbing his employers, the H. L. Griffin company of this city, for some time. The complaint included in the allegations will probably exceed \$400. Horace Scholl has been employed by the Griffin company as clerk and delivery boy for some time. Part of the merchandise taken was disposed of to the landlady where Scholl boarded, and applied to his board bill. Additional stuff was disposed of to local restaurants and fruit stores. The complaint charges that he will be commenced against some of those who have been receiving the goods from Scholl.

MATTSON WILL PROTEST.

Objects to Hollingsworth as Member of Audit Committee.

David Mattson, county clerk, stated last evening that he would enter a protest against the appointment of Attorney C. R. Hollingsworth as a member of the auditing committee appointed by the county commissioners yesterday, on the ground that he is an interested party. Hollingsworth was formerly county clerk, and since Mr. Mattson was elected to that position the feeling between the two men has not been very genial. Hollingsworth is a Republican and the other member of the committee, R. T. Harris, is a Democrat. Mattson has gone so far as to consult his attorney, H. E. Forbes, as to what, if any, legal steps he can take to prevent Hollingsworth from serving on the committee.

WAITER BADLY INJURED.

Cut in Restaurant Row and Condition Is Critical.

James Kennedy, a waiter, was injured in a restaurant row last evening. Kennedy's head was badly cut and one of the arteries of the neck was severed. Kennedy went to bed. In his sleep he tore the bandages from the wound and lost a large quantity of blood. When he awoke he had but little strength left. He went to the police station in search of aid, and he fainted from loss of blood before a doctor could be summoned. Dr. H. E. Forbes later redressed the wound. Kennedy's condition was pronounced critical last night.

More Than 1,000 Register.

All of the four political parties who have tickets in the field this fall had their workers busy yesterday securing full registration of voters. The same

Free Demonstration

Monday, Tuesday and Wednesday at Wilcox Grocery, 16 South Main St.

Hebrews Coffee

methods as are used in getting voters to the polls were put into effect and more than 1,000 names were added to the registration lists. This heavy registration indicates that the full voting strength of Weber county will be polled at the November election.

GETS TWO THEATRES.

Utahna in Ogden, Lyric in Salt Lake, Reported Leased.

The leasing of the Utahna theatre in Ogden and the Lyric theatre of Salt Lake to Frank Moore, a member of the Bitter Stock company, was reported here last evening. Notice has been served upon the stock company playing in each of the houses that their services will not be required two weeks from date. For some time negotiations have been under way for the leasing of these houses. Those who were competing in the transaction were the Novelty Theatre company, the Sullivan-Conside syndicate and Mr. Moore.

R. A. Grant of this city will be retained as general manager of both houses. Mr. Grant of course owns a controlling interest in the stock. It is stated that Moore will continue stock companies of his own. Mr. Whittier, however, will be retained as director for the company. It is understood that John Cort of the Northwestern Theatrical association is dissolving his smaller houses and is directing his attention to the larger theatres. In his business company venture of last season it is claimed he lost \$25,000.

Manager R. A. Grant was called to San Francisco yesterday by Mr. Cort and it is believed that a deal is on foot which will complete the coast circuit. A few days ago a deal was completed in Los Angeles by Mr. Grant whereby the Northwestern syndicate secured a large playhouse in that city.

Finger Blown Off.

John Phalen, residing with his parents in this city, while out hunting near Brigham City a few days ago, had one of his fingers blown off by the explosion of the gun which he was using. As a result of the accident Phalen had the forefinger of the left hand amputated at Brigham City and returned to Ogden. The second finger of the same hand was also badly injured.

Transmission Line Completed.

W. J. Felker, who has been employed on the construction work for the transmission line from Brigham City to the site of the Utah Smelting company, was in Ogden yesterday and reports the completion of the line. Mr. Felker expects to return to the work in a few days and assist in putting up the transformers which have arrived here.

Old-timer Drops Dead.

William Powers, a prominent resident of Weber county, died last evening from an attack of heart failure. He was 62 years old and is survived by a widow and eight children. Powers dropped dead while walking in his yard.

Ogden Briefs.

The Nichols Concert band of this city has arranged for a concert which they will give in the local opera house on the afternoon of November 18. The concert will commence at 4:15 o'clock and conclude at 6 o'clock.

A petition for letters of administration in the matter of the estate of William McGregor was filed in the district court yesterday by J. J. McGowan, administrator. The petition consists of real estate valued at \$10,000.

Frederick E. Robinson, the 22-year-old son of Mrs. Mary L. Robinson, died yesterday morning from an attack of typhoid fever after an illness of seven weeks. The funeral will be held at the residence on West Patterson avenue at 2 o'clock Thursday afternoon.

The case of Laura G. Read against John Lee, to recover several hundred dollars that he had been left in the custody of the defendant by the plaintiff's husband, and which was drawn by another party, who embezzled it, has been decided in favor of the defendant and against the plaintiff.

Charles Gaffey, the 18-year-old boy captured last night by a patrolman in the lower Twenty-fifth street, which he had entered with a view of robbing, was yesterday sentenced to the State Industrial school by Judge E. Patton in the juvenile court. Gaffey pleaded guilty to the charge.

Word was received here yesterday of the death of Oscar Gutke of this city, which occurred at McCammon, Ida., on Monday evening. Gutke was 74 years of age and was the mother of five children. The funeral will be held at Salt Lake tomorrow afternoon.

VERDICT IN HANKOW CASE

Coroner's Jury at Hongkong Finds That the Horrible Disaster Was a "Misadventure."

Hongkong, Oct. 31.—The coroner's jury in the steamer Hankow fire disaster has found that it was a "misadventure." The jury added a rider to its verdict to the effect that the practice of ships carrying an inflammable cargo unprotected on the main deck was a dangerous one. The services of the police and others in the custody of the cargo were highly commended, and it was recommended that the owners of two junks which were burned while being employed in saving lives be compensated.

CAUSED BY EARTHQUAKE.

Marked Change in California Insect and Reptile Life.

Berkeley, Cal., Oct. 30.—Professor W. F. Ritter and his assistants in the department of zoology at the University of California, claim that the recent earthquake aside from tumbling down buildings and changing the geological formations of the state, has made a marked change in the insect and reptile life of many regions. This effect on the lower forms of animal life is, according to the scientists, due to effects of the "fault" slides. The flora is not affected.

Fisher Beer Is Pure and Unadulterated

Absolutely no preservatives, no adulterations, no foreign substances of any kind enter into the making of Fisher beer. When you pour into your glass a drink of our beer you may be assured that you have there a beverage pure as a draught of mountain spring water. Foreign beers are often heralded as the purest brewed, but it is a well known fact that European beers are freely adulterated with chemicals to keep them from spoiling. The carbonic acid gas and the slight percentage of alcohol developed during the process of the fermentation of Fisher beer act sufficiently as preservatives. The only ingredients we use are pure barley malt and selected Bohemian hops. No substitutes are allowed. And our sterilizing process insures purity—perfect freedom from contamination.

Fisher Beer is Wholesome and Delicious.

IT IS A BEVERAGE THAT TONES AND STRENGTHENS.
